

# Need Help With Your Manuscript?

---

**Dr Grif Alspach**, Consulting Editor, is available to provide support, free of charge, to *CCN* authors who have questions before and during the publication process.

Questions might concern topic development (“Is the topic I have in mind publishable?” or “I have an idea for a paper, but how do I organize it into a manuscript?”), manuscript development (“I would like some feedback on a paper I’ve prepared before submitting it to a journal” or “I need help turning my poster/presentation into a journal article”), or the peer-review process (“I submitted a manuscript for publication and reviewers had tons of suggested changes—I don’t know where to start revising it”).
